Kirstin,

Great information – thanks for following up. I have reached out to Brent also, and forwarded this to Tony Selle our manager for the GIS group to let him know we want to move forward.

Thanks and we'll connect next week. Probably later in the week; the first part is pretty occupied.

I will let you two decide what it is you want from DRMS and I will see if we can provide it easily.

I did put a lot of coordinates into GIS about 5 years ago, and that is what the images are showing. It would take me a while to figure out what sites I have in here, but initially it looks like I focused on DMG and WQCD data. The motivation of putting this data together was to come into compliance (on behalf of ARSG) with STORET by using the Colorado Data Sharing Network to upload.
